

Abdulkadir Doyan

Back-End Developer

✉ doyanabdulkadir@gmail.com ☎ +90 (546) 639 92 86 🏠 İstanbul

I am a professional with a background in Computer Engineering and experience as a Back-End Developer. I am proficient in modern software development processes, with expertise in database management and API integration. I aim to deliver scalable and reliable back-end solutions by effectively utilizing my problem-solving skills. I am a team player, open to innovations, and place great emphasis on continuous learning. By staying updated on the latest technological trends, I strive to add value to projects and enhance user experience.

Education

Eyl 2013 - Haz 2019

■ **Computer Engineer**
İskenderun Teknik University
